Cebu Pacific Delivers Strong Q1 EBIT Driven By Record Passenger Volume

Cebu Pacific (PSE: CEB), the Philippines' leading airline, reported a 10% year-on-year increase in total revenue for the first quarter, driven by an increase in seat capacity and sustained passenger demand.

Total revenue for the quarter rose to ₱33.3 billion, supported by a 10% increase in seat capacity and sustained passenger demand across both domestic and international markets. CEB carried 7.5 million passengers, up 8% year-on-year, while maintaining a healthy seat load factor of 83.7%, reflecting effective capacity deployment and stable travel demand.

Passenger revenue increased 6% to ₱22.5 billion, while ancillary revenue rose 19% to ₱9 billion, driven by continued improvements in ancillary yields. The airline's cargo business also expanded, with cargo revenue growing 8% year-on-year to ₱1.8 billion, supported by higher widebody capacity.

EBITDA rose 26% year-on-year to ₱8.4 billion, while operating income increased 54% to ₱3 billion. Cost discipline and improved operating efficiencies partially offset higher operating costs associated with fleet and capacity expansion.

Core profitability improved, with core income before tax increasing to ₱1.3 billion from ₱325 million last year. Quarter-end peso depreciation resulted in non-core foreign exchange losses of ₱1.8 billion, resulting in a net loss of ₱400 million versus net income of ₱466 million in the prior year.

Cebu Pacific ended the quarter with 101 aircraft in its fleet and a strong liquidity position, closing March 2026 with over ₱23 billion in cash, providing ample flexibility to manage near-term volatility while supporting strategic initiatives.

“Our first-quarter performance reflects the strength of our network and disciplined capacity deployment,” said Mike Szucs, Chief Executive Officer of Cebu Pacific. “As we navigate a more volatile operating environment amid higher fuel prices, we are taking a more cautious and measured approach focused on margin protection, prudent capacity deployment, and liquidity preservation. Our scale, fleet efficiency, and strong domestic network position us well to navigate near-term uncertainty while continuing to build long-term value.”
